SUMMARY

Data analyst with a certificate in Data Analytics and Visualization from UC Berkeley Extension and 6+ years of experience in the financial industry. Experienced in reporting with data to facilitate executive-level decision making. Maintaining priorities on strict deadlines and a fast learner who can absorb new ideas and skills. Finds great satisfaction in extracting insights from data that inform decision-making and drive growth.

TECHNICAL SKILLS

Python, Jupyter Notebook, Pandas, Flask, Matplotlib, API, JavaScript, JSON, HTML, CSS, D3, SQL, SQLAlchemy, MongoDB, Tableau, Microsoft Office

PROJECTS

Language Demographic in the US | https://github.com/tomrecht/Project-1
- Explored recent trends in the population of speakers of foreign languages in the US, both nationally and at the regional level.
- Tools used: Pandas, Jupyter Notebook, Python, Matplotlib, Gmaps and Numpy.

New York Properties Sale |https://github.com/fsabree/final_project |https://nyc-home-sale.herokuapp.com/
- Analyze and visualize the data of the sold properties in New York City during a certain time period.
- Tools used: Pandas, Jupyter Notebook, Python, Tableau, Plotly, AWS and Skit-learn.

EXPERIENCE

AVP & Accounting Officer   July 2015 - February 2020
Open Bank   Los Angeles, CA
- Presented financial information in a clear and concise manner to management.
- Performed monthly income forecasts against annual targets.
- Simplified complex excel-based financial worksheets and reduced time to create financial reports by 50%.
- Analyzed current and past trends in key performance indicators including net interest margin, return on equity, return on assets, efficiency ratio, and book value per share.
- Updated and implemented new procedures to enhance the workflow of the accounting department.

Accounting Supervisor   September 2013 - June 2015
US Metro Bank   Garden Grove, CA
- Assisted in various accounting activities, including account payable, journal entry, bank account reconciliation and auditing.
- Supported monthly financial closing by collecting documents and ensuring all financial deadlines were met.
